COMPUTERS!

Random access memory
Hypertext markup language
Early programming language
The ultimate in internet communication
Communicates through utility lines
Pointing device
Smallest element of the screen
External connection points
Signal represented by varying levels
Just a bunch of ones and zeros
One after the other data flow format
Signal coded in binary format
Proper term for the screen
Produces hard copies
World's primary operating system
Better than just text
Connecting the world's computers
Common arrangement of 101 buttons
Data flows through several paths
Early printer type
The computer's library
Popular alternative operating system
Contains countless integrated circuits
What crunches the data
Temporary data storage medium
Audio and video capabilities
Optical data storage medium
Holds key internal components
